DIESEL AND LPG COUNTERBALANCE TRUCKS

4.0 – 5.5 tonnes

**MAXIMISE YOUR PRODUCTIVITY...
WITHOUT COMPROMISING ON
EFFICIENCY**

Tough, reliable and built to work as hard as you do, the class-leading GRENDIA EX promises reliable, class-leading performance - whatever the challenges.

DIESEL AND LPG COUNTERBALANCE TRUCKS

4.0 – 5.5 tonnes

Tried and tested in the toughest applications, this no-nonsense design builds on the successes of its predecessors - delivering optimal performance.

GRENDIA EX's sophisticated Euro 3B compliant engines, coupled with its long-life design, keeps GRENDIA's running costs and maintenance demands low - for maximum efficiency and productivity.

Green inside and out, GRENDIA EX keeps noise and exhaust emissions to a minimum, while delivering improved overall economy.

FRAME AND BODY

- **Stylish, purposeful design** reflects this machine's power to work productively, non-stop, whatever the conditions.
- **Robust construction** provides high stability, rigidity and protection, with no exposed wires or hoses.

MAST AND FORK ASSEMBLY

- **Strong, high-visibility mast** allows handling of heavy loads in tough environments with total confidence.
- **Wide range of high-quality masts and attachments** deliver precise compatibility and an ideal configuration for each application.

DRIVE

- **Turbocharged diesel engine** delivers the power of a 5.0L engine, with the economy of a 3.4L engine, while meeting Euro Stage IIIB standards.

- **Maintenance-free diesel particulate filter** efficiently burns particulate matter while the truck is in operation - avoiding costly downtime.
- **Advanced LPG engine with 3-way catalytic converter** delivers precise, controlled performance and market-leading fuel economy with very low emissions.
- **Fully floating powertrain** with two-speed forward and one-speed reverse transmission maximises gradeability and travel speed, minimises noise and vibration, and uses maintenance-free gears instead of belts to lower running costs.
- **Adjustable transmission shift** timing increases versatility, for optimum performance in a wide variety of applications.
- **Large diameter drive axle shafts** are extremely durable and require little maintenance.

STEERING SYSTEM

- **Fully hydrostatic steering system** - together with compact design - ensures effortless, precise and responsive manoeuvring - even in tight spaces.
- **Angle-sensitive steering system** provides quick turning at low speeds and precision control at higher speeds.

BRAKES

- **Powerful drum brake system** gives excellent control with little effort and is easy to maintain.

- **Electronically controlled parking brake** allows safe, effective immobilisation of the truck with minimum effort - and without restricting knee and leg movement.

HYDRAULICS

- **Powerful hydraulic system** is specifically designed to minimise noise in the operator's environment.

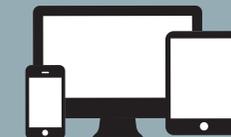

ELECTRICAL AND CONTROL SYSTEMS

- **Integrated Presence System 2 (IPS2)** pioneered by Mitsubishi Forklift Trucks prevents all movement of the truck and its mast if the operator is not seated.
- **Operator identification** system can be activated - if owner wishes - to prevent unauthorised use of the truck.
- **Onboard diagnostics and detailed fault diagnosis** via laptop connection alerts operators and service engineers to problems, speeds up servicing and prevents damage.

GRENDIA EX

FD / FG40-55(C)N(B) Series

DIESEL AND LPG COUNTERBALANCE TRUCKS

4.0 – 5.5 tonnes

OPERATOR COMPARTMENT AND CONTROLS

- **Market-leading ErgoCentric design** results in easy on-off access, a unique, adjustable steering column with position memory, user-friendly controls, a practical layout and great all-round visibility – for maximum precision and productivity.
- **Full-suspension seat** with hip support keeps driver comfortable through the longest of shifts.
- **Hydraulic control levers** are easy to reach and easy to use.
- **Optional fingertip hydraulic controls** with integrated, fully adjustable, high-comfort armrest (an award-winning concept) allows effortless precision.
- **Automotive-style pedals** with optimum pedal angle are easy to use and give good control without leg strain.
- **Low noise level at operator's ear** and low vibration from powertrain increases comfort and reduces fatigue.

- **Clear and comprehensive instrument panel** with LCD display keeps operator and manager fully informed of, for example, speed, time, engine hours, service intervals and faults – to optimise productivity, truck life and safety.
- **PlusCab panel cabin** offering outstanding visibility through laminates glass, and all-round protection from weather elements.

OTHER FEATURES

- **Long service interval** and long life of components reduces downtime and associated costs.
- **RapidAccess features** give unequalled ease of entry to all areas for checks and maintenance.
- **Optimal air filter placement** minimises replacement - saving time and money.
- **Belly Seal** protects against damaging dust and debris - preventing the 'cyclone effect' where dust and dirt is drawn into the engine and recirculated into the working environment.

FLEXCONTROL INTELLIGENT TRUCK PROTECTION:

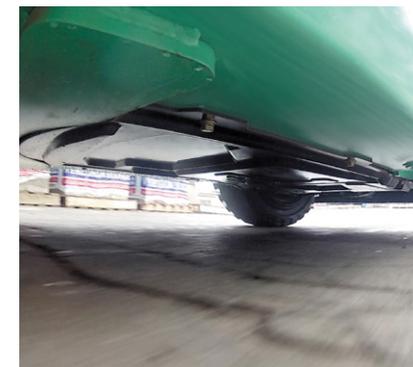

- combined with oil-cooled wet disc brakes in an option package for high-intensity applications
- delivers dynamic performance with minimum wear of transmission components and tyres

INTEGRATED PRESENCE SYSTEM 2 (IPS2) PROVIDES:

- a hydraulic and travel interlock system that prevents all movement of the truck and its mast if the driver is not seated
- a seat belt warning light
- an automatic parking brake with alarm

WHEN RELIABILITY IS EVERYTHING...

GRENDIA
THE GREEN DIAMOND

The green colour of our trucks is a sign of our commitment to protecting the environment.

The diamond shapes in our logo are a reminder that – like a diamond – a Mitsubishi forklift truck guarantees quality, reliability and a sound investment.

Like any product bearing the "MITSUBISHI" name our materials handling equipment benefits from the tremendous heritage, huge resources and cutting-edge technology of one of the world's largest corporations – Mitsubishi Heavy Industries Group.

Engineering spacecraft, jet planes, power plants and more, MHI specialises in those technologies where performance, dependability and superiority decide your success or failure...

So when we promise you quality, reliability and value for money, you know it's a guarantee we have the power to deliver.

That's why every model in our award-winning and comprehensive range of lift trucks and warehouse equipment is built to a high specification – to ensure it keeps working for you. Day after day. Year after year. Whatever the job. Whatever the conditions.

YOU'LL NEVER WORK ALONE

As your local authorised dealer, we are here to keep your trucks working – through our extensive experience, our technical excellence and our commitment to customer care.

We are your local experts, backed by efficient channels to the entire organisation of Mitsubishi Forklift Trucks.

No matter where you are, we are close by – with the capability to meet your needs.

Discover how Mitsubishi Forklift Trucks give you more from your local authorised dealer or when you visit our website www.mitforklift.com

Performance specifications may vary depending on standard manufacturing tolerances, vehicle condition, types of tyres, floor or surface conditions, applications or operating environment. Trucks may be shown with non-standard options. Specific performance requirements and locally available configurations should be discussed with your distributor of Mitsubishi forklift trucks. We follow a policy of continual product improvement. For this reason, some materials, options and specifications could change without notice.
